

LACTIPS COMMUNICATION KIT

2024 version

Would you like to communicate about our company or our products? We're thrilled! Here are some resources to make it easier for you:

Presentation of the company

Pioneer in the world of natural polymers, Lactips develops, produces, and markets a plastic-free material that is 100% bio-based, fully biodegradable in all environments, and water-soluble. With its unique properties, CareTips® by Lactips is an ideal and tailored response to environmental challenges, especially for applications in packaging, water-soluble films, and blends of CareTips® with biodegradable plastics.

Founded in 2014 based on research conducted by Frédéric Prochazka, PhD, a researcher and professor at the University of Saint-Etienne (UMR CNRS 5223), Lactips underwent a significant transformation into an industrial company in 2022, marked by the opening of its first production unit and the appointments of Alexis von TSCHAMMER as CEO and Bertrand DUPEYROUX as Sales & Marketing Director. Today, Lactips employs 45 people.

Motto : Natural Solutions to Microplastics

Vision : Preserving nature by removing plastic waste and pollution

Mission : Guide converters and brand owners in their ecological transition by providing a drop-in solution alternative to conventional fossil-based plastics
